Class Act

It was good to have a night of review after our week off wasn't it? After all, we have been

flipping, fanning, and following for the last couple of weeks. Are we good or what? If you would like to review the plus calls using a DVD I have one copy that can be checked out for a week at a time. See me if you are interested. Keep up the good work!

Who's Your Corner?

See if you can figure out who this month's mystery corner is. Answer is on page 4.

- Some folks like to raise Cain. Well this lady prefers to re-cane, as in furniture. She started 30 years ago when her mother was about to throw out her grandmother's damaged wicker chairs. Having no experience in how to do the actual repairs, our corner found a how-to book, did the work, and then realized there was a market out there for her services. Since then she has gotten work through nearly every furniture refinisher in the area. Holidays are especially good times because that's when families get out their old chairs to accommodate guests and it's just not good form to have them fall through the seat.
- Originally from St. Louis, she came to California with her mom at age 9 and has been here ever since. Along the way she raised 4 children and now has 8 grandchildren and 3 great grandchildren, with some living nearby and others scattered around the country.
- She used to do a lot of cooking. It started with cooking for girl scouts in camps and then eventually working at Marin Academy and other institutions as a food coordinator (which means she was in charge of the kitchen and the dining room).
- Like a lot of Marinites she likes to get out and hike, but she has gone beyond just walking on various local trails to actually leading hikes on Mt. Tam for the Mt. Tam Interpretive Association, a volunteer arm of California State Parks. Each hike requires a theme, such as wildflowers, park history, seasons on the mountain, or mushrooms, so she needs to be mentally sharp on these hikes as well. One with great views but little

walking is when astronomers bring their telescopes to the top of Mt. Tam and let everyone see the heavens in all their glory.

- She began square dancing in 1987 when a friend suggested trying the Tam Twirlers, and she's seen a lot of changes over the years. For one thing, beginning classes had 40 – 60 dancers, and she remembers Jerry Kerby dividing the class into smaller groups and hosting potluck dinners so students would get to know one another. She said our club used to have more social activities, such as going to a picnic and then playing games like volleyball and horse shoes. Brad Sayles was responsible for setting up the games and storing equipment between activities. When the picnic interest lagged, the Cruising Club became the favored locale.
- So who is this active lady?

Setter/Cleaner Uppers

If you can't come on your assigned date, please arrange a substitute and let our hospitality chair, Gen Sheppard know.

Those assigned for a given month are asked to bring a treat for party night on the last Wednesday of the month.

SET-UP DUTIES: Arrive by 6:30 pm. Heat and light switches are in the back room if needed. If it is still light you can wait to turn on the parking lot lights, but no later than 8. Prop open the side door. Get ice from the bar before it closes at 7; Fill the cooler, put out cups, snacks, and marking pen. If tables are set up, stack enough to leave room to dance. Set up chairs around the hall and the caller table on the stage. Set up the hospitality table with the guest sign-in book, member sign-in sheets, flyers, and solo rotation sheet. If it is hot, set out the fans stored in the supply closet room – one in the doorway of the side room and the other near the bar.

CLEAN-UP DUTIES: Empty the cooler, clean up cups and trash. Place flyers and other items in the plastic bin and then put it and all other supplies back in our supply closet; leave out tables and chairs. If the fans are out, return them and our extension cord to the storage closet room. When leaving, close all doors.
